Designing a REMARKABLE guest experience

Designing a REMARKABLE guest experience

STEP 1:

Define Touchpoints

A touchpoint is any direct contact with a customer (i.e., bar, host stand, table, etc.)

LIST THE TOUCHPOINTS IN YOUR VENUE:

<input type="checkbox"/>	PHONE
<input type="checkbox"/>	WEB
<input type="checkbox"/>	PARKING LOT
<input type="checkbox"/>	HOST STAND
<input type="checkbox"/>	BAR
<input type="checkbox"/>	TABLE
<input type="checkbox"/>	WASHROOM
<input type="checkbox"/>	REGISTER/PAYMENT
<input type="checkbox"/>	TAKEAWAY/TO GO
<input type="checkbox"/>	OTHER

TIP FROM THE PROS: Remember, no touchpoint is neutral. Every touchpoint has the potential to keep or break a brand promise.

Outcome example – guest feels recognized and important

- Obstacle 1: too crowded
 - **Solution 1:** cross train sufficient staff to support the bar during peak hours
 - **Solution 2:** develop a standard greeting that both meets the requirement but takes less than 30 seconds to deliver
 - **Solution 3:** “stacking customer strategy”: greet a customer, give them a menu, and tell them you’ll be right back with them / use effective customer stacking strategy

STEP 6: Measuring Success

IN PROCESS MEASUREMENT AREAS

Different areas for measuring how well the touchpoint experiences are delivered over a period of time. Use as a guide for prioritizing a few key areas for measuring success.

Ways to measure success
